Print Speeds Note:

Print times will vary depending on computer configuration, print setting, application, coverage and page complexity.

The print times shown in this brochure are the average time for multiple prints of the same page over one minute. Times are measured from the 'Print' command to the delivery of the page in the tray. The speeds were achieved using the following system: 200Mhz Pentium PC, 64MB RAM, 2GB HDD, Windows 95 or 98.

PRINT

EPSON DURABrite Performance
The EPSON Stylus CX5200 uses new EPSON DURABrite ink technology. Durable and light-fast, DURABrite inks are fade resistant up to 70 years*, resistant to water and smudge proof. Developed specifically to offer laser sharp performance in black and vibrant colour reproduction even on plain or recycled paper.

DURABrite INK

EPSON Speed, Quality and Simplicity
The EPSON Stylus CX5200 offers high speed printing at up to 22ppm black and 11ppm colour – with inks dry as soon as they leave the printer. With an optimised resolution on suitable media of up to 5760 dpi, the EPSON Stylus CX5200 produces crisp, dense blacks, vibrant colours and high definition photo quality printing.

SCAN

High quality, 1200dpi scanning
The built-in high quality 1200 x 2400dpi scanner gives you the power to capture documents, photos and an infinite range of other business materials or family keepsakes in accurate detail and rich 48-bit colour.

EPSON Smart Panel software provides a host of user-friendly tools and shortcuts that automatically chooses the correct scanning parameters for optimum copying, scanning and photo printing activities. A number of options are available via the easy-to-follow on-screen control panel:

Intelligent ink cartridges
The EPSON Stylus CX5200 utilises separate Intellidge cartridges for each of the four colours. Enhanced feedback with accurate ink level monitoring keeps you fully informed, and resealable valves allow partially used cartridges to be removed and replaced at a later date – say when a full one is needed for a large print run.
